

FLEXIBLE SILENCERS TUBE

FLEXIBLE TUBE:

- Single-layer: - flexible
- smooth fixed
- perforated
- Two - layer: - flexible
- smooth flexible
- smooth fixed
- Pre - Insulated

MATERIALS:

- Stainless Steel
- Aluminum
- Galvanized steel sheet

USE:

- Chimney Redevelopment
- New construction of chimneys
- Ventilation
- Evacuate
- Heating
- Cooling
- Exhaust system
- Air hoses for mot. Ind.
- Temperature up to 400°C

DIMENSIONS:

- 50 - 600mm
- 600 - 1200mm

SILENCERS:

- No formaldehyde
- For ventilation
- A high damping coefficient
- Temperatures up to 200°C
- Double-layer Aluminum
- The possibility of bending
 $R = 3 \times d_z$

DIMENSIONS OF SILENCERS:

- 80, 100, 125, 150, 160, 180, 200, 250, 315
